

HEAR IT. SEE IT. VERIFY IT.

PayNow confirmation that keeps up with your stall.

HOPPY announces a confirmed PayNow payment, keeps the amount and reference visible, and stores a stall-scoped history for later checking.

HOW HOPPY WORKS

01

Customer pays

The customer scans the stall's enrolled PayNow QR and confirms payment.

02

Record is confirmed

Hawker Online receives confirmation for the signed-in stall.

03

HOPPY announces

The device speaks the amount and keeps the time and reference available.

HELP REDUCE PAYMENT FRAUD RISK

Do not rely on customer screenshots.

A screenshot can be edited, delayed or shown twice. Staff can instead check HOPPY's confirmed status, amount, time and payment reference for the enrolled stall.

CONFIRMED

S\$12.80

10:42 AM | PN-4827

GOOD COUNTER HABIT

Serve only after the HOPPY record shows the confirmed payment for your stall. No payment system removes every risk.

SIMPLE FEES. A CLEAR PATH TO GROW.

Start with payment clarity. Add more when the stall is ready.

No hidden prices. No bad surprises. We confirm eligibility, equipment terms and the expected activation date before you proceed.

HOPPY FEES

DEVICE LEASE

S\$0 / month

S\$150 refundable device deposit applies.
